

Trade name: Cafco® BONDSEAL

Issued: 05/05/2009
Supersedes version: --/--/--

1. Identification of the product and of the company

Product name: Cafco® BONDSEAL
Intended Product use: Cafco® BONDSEAL is a water based dispersion of styrene acrylic copolymer, used as adhesive/sealer coat for fire protective renderings.
Company
Company : Promat UK Ltd.
Address : The Sterling Centre
Eastern Road
Bracknell
GB – Berkshire RG12 2TD
Telephone : 01344 381 400
Fax : 01344 381 401
e-mail : technicaluk@promat.co.uk

2. Hazard Identification

Indication of the hazards: Not classified as hazardous or dangerous according to 1999/45/EC.
Specific risk information for the environment: no particular risks

3. Composition / Information on ingredients

Description: This product is a preparation.
Chemical characterisation Water based dispersion of styrene acrylic copolymer.

4. First aid measures

Inhalation: Remove to fresh air, seek medical attention in severe cases.
Ingestion: May cause nausea. Do not induce vomiting. Seek immediate medical attention.
Skin contact: Repeated or prolonged exposure may cause irritation. Remove contaminated clothing. Wash thoroughly with soap and water. Seek medical attention if irritation or symptoms persist.
Eye contact: May cause temporary irritation. Irrigate with water for 15 minutes, holding eyelid open. Seek immediate medical attention.

5. Fire fighting measures

Additional Information: The product is water based and is not combustible.

Trade name: Cafco® BONDSEAL

Issued: 05/05/2009
Supersedes version: --/--/--

6. Accidental spill / release measures

Individual precautions: see sections 7 and 8
Environmental precautions: - Do not discharge into soil, drains or watercourses
- clean up immediately all accidental spill.
Methods for cleaning up: large spillages should be contained and pumped into a receiving vessel. Small spillages should be absorbed with inert absorbant. For disposal methods refer to section 13.

7. Handling and storage

Handling: Ensure adequate ventilation of the working area. Observe good housekeeping practice when handling, carrying and dispensing.

Storage: Keep container tightly closed and in a well-ventilated place. Store between +5°C and +35°C, protected from frost and direct sunlight.
Do not use storage vessels and pipe work made of aluminium, copper or their alloys.

8. Exposure controls / Personal protection

EXPOSURE LIMIT VALUES None according to EU directive 1999/45/EC.

EXPOSURE CONTROLS

Occupational exposure controls: The product may contain low levels of volatile organic compounds or ammonia which may evaporate during application and drying:
Ensure adequate ventilation of the working area, where the product is dried or sprayed, local extraction is recommended.

Individual protection controls: Avoid inhalation and ingestion.
Avoid eye and skin contact.

Wear personal protective equipment appropriate to the task:

- **Respiratory protection:** Ensure adequate ventilation of the working area. If spraying product without local exhaust fan, wear a normal dust mask (for example P2).
- **Eye protection:** Use safety goggles.
- **Skin/hand protection:** Use impermeable and chemical resistant gloves. Wear protective waterproof clothing and boots. Wash with soap and water after handling.
- **Hygiene measures:** Do not eat, drink or smoke when handling the product.

SAFETY DATA SHEET

According to EU Directive 2001/58/EC

Promat
